

## Ceramic Deburring Systems and Tools

Improve safety in your plastic manufacturing environment and eliminate accidental cuts while deflashing or deburring parts. "Space-Age" ceramic blades work well on all hard plastic materials, glass or talk-filled nylon, ABS and Melamine. Our "Ceramic" deburring tools work equally well on brass, zinc, aluminum or carbon fiber.

### "Safe Cut" Knives/Deburring Tools

**EXTREMELY LONG LIFE!** Consists of \*40mm ceramic blade with ergonomic handle. Both Knives are "one piece" construction. NOTE: Mini Size blade protrudes 25 mm from handle.

Catalog No.	Size	Length of Handle
SC-100	Standard	132mm
SC-100M	Mini Size	85mm

### "Cera-Cut" Deburring Tool CC-100X (convex edge)

**EXTREMELY LONG LIFE!** Consists of 35mm "convex edge" ceramic blade with 115mm long ergonomic handles (one piece construction).

Catalog No.	Size/Type	Length of Handle
CC-100X	Convex	115mm

### Cera-Cut Deburring Tool CC-200

**EXTREMELY LONG LIFE!** Consists of a 30mm long "convex" or "concave" shaped "replaceable" ceramic blade with rigid handle.

Catalog No.	Blade Type	Length of Handle
CC-200X	Convex	115mm
CC-200E	Concave	115mm

### "Cera-Cut CC-200 (Blades or Handles only)

Easily select handle or choice of blades only.

Catalog No.	Type	Length of Blade or Handle
CC1-200XB0	Convex Blade Only	30mm
CC2-200EB0	Concave Blade Only	30mm
CC12-200H0	Handle Only	115mm

### "Cera-Cut" CC-3000 with 2 blades (Set includes one each "concave" and "convex" blade).

Catalog No.	Type (Blade)	Length of Handle
CC-3000	1 each Convex & Concave	115mm

### "Cera-Cut" ceramic "two edge" Deburring Tool

Ideal for deburring "two edges" at the same time when working on plastic or sheet-metal parts from 1/32 up to 1/2 inch thick. The V-shaped ceramic blade, mounted to a "safety-guard" handle, can be easily replaced.

Catalog No.	Type	Length of Handle
CC-300BH	Blade & Handle	115mm
CC2-300B0	"V" Blade Only	-
CC2-300H0	Handle Only	115mm

## Rotating "Ceramic" and "Steel" Blade Deburring Tools

Our "CeraCut" Deburring Tool with "rotating" ceramic blade is the best solution for a number of deburring applications on abrasive type "hard" or "soft" abrasive plastics, soft aluminum or die-cast parts! The unique handle with rotating ceramic blade will stay sharp for a long time while deburring abrasive plastics such as glass filled nylon, ABS, Melamine's and more.

### CeraCut Blade Set

Enjoy this practical and special priced set consisting of one blade holder/handle and ten (10) CeraCut Blades (5 "soft" & 5 "hard" cut ceramic blades).

Catalog No.	Name
CCCR5500	CeraCut 5+5 Blade Set

### CeraCut "SoftCut" and "HardCut" Blades

CeraCut "SoftCut" CR6000 utilizes a 65° cutting angle and "HardCut" utilizes a 75° cutting angle. Blades only.

Catalog No.	Name	Cutting Angle
CCCR6000	CeraCut "HardCut" Blade	75°
CCCR6100	CeraCut "SoftCut" Blade	65°

### CeraCut Handle and Complete Sets

NC5000 is for the handle only. Complete Sets like NC5100 include the "SoftCut" blade or NC5200 includes the "HardCut" blade.

Catalog No.	Name	Type
CCNC5000	CeraCut Handle Only	Handle
CCNC5100	CeraCut "SoftCut" Set 65°	Set
CCNC5200	CeraCut "HardCut" Set 75°	Set

### Universal Remove-a-Burr Kit

Our versatile and most economical "Remove-a-Burr" Kit contains 4 deburring tools each furnished with a color coded (green, red, blue & yellow) handle that holds a special engineered blade which excels in deburring specific type of materials.

Catalog No.	Name	Included
E02100	Universal Remove-a-Burr Kit	4 Tools

### Remove-A-Burr Replacement Blades

Replacement blades correspond to their specific handle colour in the E02100 kit.

Catalog No.	Type of Blade	Handle
BS1000	Aluminum Type Materials	Green
BS1008	Steel Type Materials	Blue
BS2000	Brass Type Materials	Red
BK3000	Plastic Type Materials	Yellow
S150	Individual Blade for Small Holes	

### Handles & Extended Holders

NG8150 consists of one handle (NG1000) and 10 S10 blades for deburring Aluminum, Soft Steel and certain plastics. NG8350 includes one handle (NG-3), one extendable blade holder (S), five blades (S10) and five blades (S20).

Catalog No.	Name
NG8150	10 Blade Deburring Kit
NG8350	Extended Holder & 10 Blade Kit
